## Why Camp?

Choose a camp for your retreat because camps were designed for community building. Groups become stronger and more loyal to the program you are creating because everyone has a shared unique experience. Camps provide more open space and fresh air than any other facility.

If you want exclusivity and a place apart from the hustle and bustle, stay at camp. They provide a unique atmosphere, which helps foster creativity and group cohesion. Camps offer one retreat package price - no hidden fees.

At a place where staff is family, you can count on a long-term relationship with camp.
